

3 March 1952

## MEMORANDUM FOR THE RECORD

Item from the Daily Log - Friday, 29 February 1952

25X1A

On Wednesday afternoon [redacted] of OPC informed Mr. Pforzheimer that he had been called by [redacted] 25X1A

25X1A said he had been called by [redacted] who in turn had been called by the Subcommittee of the Senate Judiciary Committee which is investigating IPR. The Subcommittee had wanted to know [redacted] whereabouts and address. This inquiry appeared to be in violation of an undertaking by Senator Ferguson, Mr. Sourwine, Counsel of the full Committee, and Mr. Robert Morris, Counsel for the Subcommittee, at the time [redacted] testified that they would protect [redacted] 25X1A

25X1A connection with the episode and with CIA in view of his present deep cover activities. I informed [redacted] Mr. Dulles and Mr. Wisner, who expressed great concern about the possible security implications. 25X1A

25X1A With their approval I called Mr. Morris and asked him if inquiry had been made of [redacted] and, if so, for what purpose. Mr. Morris said they had asked for and obtained [redacted] address in accordance 25X1A

25X1A with Senator McCarran's instructions that they write [redacted] to see 25X1A

25X1A if he could confirm [redacted] testimony. Mr. Morris said they had no intention of implicating [redacted] publicly at this time and had 25X1A

25X1A merely sent [redacted] affidavit to the FBI asking if he could confirm the information therein. I pointed out to Mr. Morris that the passage of this information through the regular mails in itself constituted a serious compromise of the operation's security. I asked Mr. Morris for a copy of the letter in order that we could try to evaluate the extent of the compromise. Mr. Morris later informed Mr. Pforzheimer that he would have to get Chairman McCarran's permission to release a copy of the letter to us, but that he would seek such permission. I informed Mr. Wisner, and at his request talked to [redacted] 25X1A

The letter informed me that he would send a message to [redacted] 25X1A

so that a careful check would be made on whether or not the letter had been inspected.
